Dear Martin,

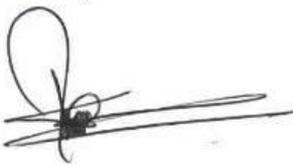

I would like to thank you for your help and support in delivering a highly relevant CPC training course for our drivers and management colleagues. You provided an excellent explanation of Transport Manager obligations to the Traffic Commissioner, including the processes and procedures that must be followed. It effectively served as a concise and engaging mini OLAC session.

I have never received so much positive feedback after a training course. The praise was across the board. Several colleagues have independently told me, "That was the best CPC course I have ever attended."

This is entirely down to everyone at DMP - to you and Jack for the delivery, and to Claire and Zoe for organising everything so perfectly. I would also like to personally thank you all for working with us so collaboratively to create a bespoke course that truly met our needs and, in the words of our colleagues, delivered "the best CPC course ever."

Thank you once again for your professionalism, expertise, and outstanding support.

Yours sincerely,

Stephen Roscoe  
Fleet Compliance and Safeguarding Manager
